WHEREAS, In addition thereto, the General Assembly has granted to cities the power to license, tax, and regulate real estate brokers, but no such authority to license, tax, or regulate real estate salesmen has been granted; and

WHEREAS, Almighty God in His Infinite Wisdom, has called to his eternal reward C. Jack Przybylinski, Chief Clerk of the Chicago Board of Election Commissioners, on November 21, 1970; and

WHEREAS, Jack Przybylinski, a native Chicagoan, was born and raised on Chicago's Southside. He began a long and distinguished career in public service in the Cook County Coroner's Office where he served for a period of 20 years, beginning as a clerk and advancing to deputy coroner. He served as a redemption clerk in the County Clerk's office from 1953 to 1956. Mr. Przybylinski was sworn in as Chief Clerk of the Chicago Board of Election Commissioners on March 1, 1956, and served in that position for over 14 years until his death; and

WHEREAS, Jack Przybylinski was for many years a member and Director of the Polish Roman Catholic Union in which he also served as President of District 9 and Secretary of Group 142, he was also a member of the Senior Holy Name Society at St. Michael's Church; and

WHEREAS, Jack Przybylinski, was a member of the Seventh Ward Democratic organization for 48 years. He began his political career as a precinct captain in 1922 and became vice president of the organization and was an officer at the time of his death. He was also a member of the Polish American Democratic Society; and

WHEREAS, Jack Przybylinski exemplified the typical public servant who without fanfare or publicity served the citizens of Chicago with dedication and devotion, carrying out the daily tasks so necessary to the efficient, smooth and effective administration of government; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 30th day of November, A.D. 1970, together with all the people of the City of Chicago by this resolution, hereby express profound sorrow and regret upon the passing of C. Jack Przybylinski, and further express their deep sympathy to his sisters Mrs. Jean Sharp and Mrs. Lucille Drake; and

Tribute Paid to Late Patrolman Nicholas Zuccaro.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward on November 6, 1970, Patrolman Nicholas Zuccaro, who was shot six times and killed by an unknown assailant; and

WHEREAS, Patrolman Zuccaro was honorably discharged from the United States Air Force; he was appointed to the Chicago Police Force on July 1, 1957; he was a 13-year veteran on the Police Force, attached to the Monroe District. Patrolman Zuccaro was slain while off duty and returning home early in the morning on November 6th. He had been unarmed at the time the shooting took place in front of his home after he had alighted from his car; and

WHEREAS, Patrolman Zuccaro becomes the ninth police officer to die during the year 1970, a victim of an unknown assailant; his death is yet another reminder of the constant danger every policeman faces, whether on-duty or off-duty, which places not only upon him but upon every member of his family the ultimate requirement of bravery; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 30th day of November, A.D. 1970, together with all the people of the City of Chicago, by this resolution, hereby express profound sorrow and regret upon the untimely death of Patrolman Nicholas Zuccaro, and further express their deep sympathy to his wife Elnora; and

Be It Further Resolved, That a suitable copy of this Resolution be presented to his widow, Elnora.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Alderman Buchanan and Alderman Rayner) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Tribute Paid to Late Patrolman Paul G. Thomas, Jr.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward on November 20, 1970, Patrolman Paul G. Thomas, Jr., who was shot on November 4, 1970, during an attempted hold-up and suffered three serious wounds which proved to be fatal; and

WHEREAS, Patrolman Thomas was born in Chicago. He attended Kohn Elementary School and graduated from Fenger High School. Patrolman Thomas served with the United States Army for four years and was honorably discharged in 1947. He was appointed to the Chicago Police Department on January 5, 1955; and

WHEREAS, Patrolman Thomas, off-duty and in civilian clothes, was visiting at his father's place of business, the Fernwood News Agency, at 556 West 103rd St., on November 4, 1970. At about 6:00 P.M. two men entered the establishment, one of whom displayed a revolver and announced a "stick-up". Patrolman Thomas asserted that he was a police officer and grabbed the arm of the robber in an attempt to disarm him. In the ensuing struggle the robber and Patrolman Thomas exchanged shots at a distance of four feet. Officer Thomas, wounded three times by the robber, who then fled, was taken to Roseland Community Hospital where he underwent immediate emergency service for bullet wounds to his right hand, right leg and to his left chest and right back. In addition to the surgery, Patrolman Thomas received massive blood transfusions. On November 19, 1970, Patrolman Thomas suffered a relapse and began bleeding internally. Massive blood transfusions were again administered and on November 20, 1970, he was transferred to Presbyterian-St. Luke's Hospital where he again underwent immediate emergency surgery. Despite all efforts to save his life, Patrolman Thomas died; and

WHEREAS, Patrolman Thomas now becomes the tenth police officer to die during the year 1970, a tragic victim of senseless and wanton killing. Words cannot adequately express either the grief at his death or the deep sympathy for his bereaved family. The citizens of Chicago must remain mindful of the fact that, day in and day out, whether on-duty or off-duty, every policeman faces instant danger and deserves the highest degree of admiration for his dedication to the cause of protecting our community from the continuing onslaught of the lawless elements within it; now, therefore,

Be It Resolved, That the Mayor and Members of the City Council of the City of Chicago, in meeting assembled this 30th day of November, A.D. 1970, together with all the people of the City of Chicago, by this Resolution, hereby express profound sorrow and regret upon the unfortunate death of Patrolman Paul G. Thomas, Jr. and further express their deep sympathy to his wife Barbara; and

Be It Further Resolved, That a suitable copy of this Resolution be presented to his widow, Barbara.

Alderman Holman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Holman (seconded by Aldermen Frost, Cousins, Buchanan, Rayner, Simon and Biggs) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Friedman, Assistants Corporation Counsel and Marvin E. Aspen, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

William E. Davern, Jr., Appellee v. Civil Service Comm., City of Chicago et al., Appellant. No. 42629. The Appellate Court of Cook County had sustained the judgment of the Circuit Court which had reversed the finding of the Civil Service Commission disapproving the certification of Plaintiff as a patrolman in the Chicago Police Department. On November 17, 1970 the Supreme Court of Illinois reversed the judgment of the Appellate Court and the Circuit Court on the grounds that the Commission's decision was against the manifest weight of the evidence.

City of Chicago, Appellee v. Kenneth Greene, Appellant, Supreme Court of Illinois, No. 42768. On November 17, 1970 the Supreme Court of Illinois affirmed the judgment of the Circuit Court of Cook County in the above entitled cause which found the defendant guilty of disorderly conduct under Section 193(d) of the Municipal Code of Chicago and in this ruling the Supreme Court reaffirmed the constitutionality of the said Section of the Municipal Code.

City of Chicago, Plaintiff-Appellee v. Lawrence Rosser, et al, Defendants-Appellants, Supreme Court of Illinois No. 42721. On November 17, 1970 the Illinois Supreme Court filed its opinion affirming the judgment of the Circuit Court of Cook County which convicted the defendants for trespass on the property of others in violation of Section 1.4(b) of Chapter 193 of the Municipal Code of Chicago. The higher court held that an elevator corridor in a general office building is private property rather than property open to the public for purposes of exercising First Amendment rights. Judgment affirmed.

City of Chicago v. Geraci, Supreme Court of Illinois, Nos. 42278-42288. The Illinois Supreme Court on November 17, 1970 handed down its decision on consolidated appeals from convictions in the Circuit Court of Cook County for violations of Section 192-9 concerning sale of obscene literature. The Court found two publications obscene and affirmed convictions for their sale but found 16 other publications not obscene and reversed the convictions for their sale as being embraced under the standards laid down by the United States Supreme Court. Affirmed in part and reversed in part.

4. *Term*

The term of this agreement shall be for a period of six (6) years commencing on ....., the date of approval of authorizing ordinance by the City Council, and terminating on ..... It is understood and agreed that notwithstanding the above term either party may cancel and terminate this agreement by serving one (1) year written notice of its election so to do.

Tenant shall pay to Landlord as rent for the Demised Premises the sum of Twelve Thousand Dollars ($12,000) per annum during the first two years of the term hereof and Twenty Thousand Dollars ($20,000) per annum during the last four years of the term hereof, to be paid as follows:

Tenant shall pay to the City Comptroller, in advance, before the first day of each month, the sum of One Thousand Dollars ($1,000) during the first two years of the term hereof and One Thousand Six Hundred Sixty-six and 67/100 Dollars ($1,666.67) during the last four years of the term hereof.

Any rental payable by Tenant hereunder which is not paid when due shall bear interest at the rate of seven per cent (7%) per annum from the due date thereof until paid. If any rental hereunder commences or terminates prior to the last day of any month, such rental for such month shall be determined on a pro-rata basis according to the number of days of such month involved.

In addition to the foregoing, Tenant shall pay to the Landlord the sum of Three Cents (3¢) per gallon for all aviation fuel serviced and the further sum of Ten Cents (10¢) per gallon on all lubricating oil serviced.

Said additional rental is to be paid during each calendar month or portion thereof, for the term of this lease, on or before the 15th day of the following month, accompanied by a statement of the number of gallons of aviation fuel and lubricating oil serviced daily, the total gallons serviced during the preceding month, and the identity of the supplier from whom obtained.

It is agreed that Tenant shall file a copy of rates and charges as may be in effect from time to time in the Office of the City Comptroller and the Commissioner of Aviation.

7. *Records*

Landlord is hereby given and granted the right at all reasonable times, by its duly accredited representatives, to enter upon the Demised Premises and examine and inspect the purchase orders, invoices, sales checks, records and books of account of Tenant and to make copies and excerpts therefrom and do anything in Landlord's sole determination that may be necessary to enable Landlord to make a full, proper and complete audit of all transactions by Tenant, including the handling of aviation fuel and lubricating oil and all purchases of aviation fuel and lubricating oil by Tenant and all sales of aviation fuel and lubricating oil made in, upon or from said airport.

8. *Landing Fees*

Tenant shall pay the current landing fees in effect at Chicago Midway Airport, or at Chicago-O'Hare International Airport or Merrill C. Meigs Field whenever it is necessary for Tenant's aircraft to be diverted to either of the latter.

Said payment is to be computed on landing fees, but not parking fees, then in effect as outlined in Chapter 37 of the Municipal Code of Chicago.

Tenant agrees that it shall keep and maintain records of all landings made at Chicago Midway Airport, Chicago-O'Hare International Airport and Merrill C. Meigs Field, in form as approved by the Comptroller, and shall remit directly to Comptroller, with itemized report of landings, copy of which shall go to the Commissioner, on or before the 15th day of the month following, payment for all such landings made during the preceding month, or portion thereof.

Landing fees shall not be assessed for any landing of a ferry flight between Chicago Midway Airport and the other City owned Airports, or for any landing of an aircraft returning to the airport from which it took off because of meteorological conditions, mechanical or operating causes, or any similar emergency or precautionary reason.

Since Chicago-O'Hare International Airport landing fee is subject to change every calendar halfyear, the Commissioner shall advise Tenant of the specific fee to be in effect at Chicago-O'Hare International Airport for each such period, at least fifteen (15) days in advance of such period.

9. *Fire Insurance*

Landlord shall keep in force during the term of this Agreement, and bill Tenant annually therefor, a policy of insurance covering Fire and Extended Coverage, Malicious Mischief and Vandalism for the building only. Tenant shall obtain its own insurance coverage for its property contained within the said building.

10. *Assignment or Sublease*

Tenant covenants not to assign, transfer, nor to sublet, license or permit the use of the premises or any part thereof except to a wholly owned, affiliated or subsidiary company, without the consent in writing of the Commissioner of Aviation and the City Council first had and obtained, nor permit any transfer by operation of law of its interest created thereby.

Any such assignment, transfer, sublease, license or permission when and if approved shall be in writing and promptly upon execution thereof, Tenant shall furnish two (2) copies to Landlord for its files.

11. *Performance Bond*

At the time of the execution hereof, Tenant shall execute and deliver to the Comptroller a Performance Bond in form, type and amount as to be determined solely by the Comptroller, with the minimum amount, however, to be equal to six (6) months hangar rental, which bond shall guarantee faithful performance of the provisions of this Agreement.

12. *Training*

Tenant shall not use or otherwise permit the use of the Demised Premises for the purpose of hangaring, storing, or servicing aircraft used for the purpose of flight instruction at Chicago Midway Airport.

In Witness Whereof, the parties hereto have caused this Agreement to be executed under their respective seals on the day and year first above written.

Whereas, there now exists in the City of Chicago over South Western Avenue, south of Twenty-Sixth Street, four railroad bridge structures supporting the tracks of the Railroads.

Whereas, the existing structures are of such age and condition that the City of Chicago and the Railroads desire to replace the four existing structures with two new structures of modern design and construction which are designed to span the full 100 foot street width; and

Whereas, the City and the railroads desire to enter into an agreement to accomplish the construction of the new structures upon and subject to the

limitations, terms and conditions hereinafter set forth.

WITNESSETH:

Now, Therefore, in consideration of the premises and the covenants and agreements hereinafter contained, it is agreed by and between the parties hereto as follows:

Section 1. The City agrees, under the terms of this contract to perform all of the following items of work: removal of the existing four railroad bridge structures and abutments, and construction of two new single track bridge structures carrying tracks of the Railroads over Western Avenue, the filled approaches, street lighting and street and sewer work, together with all other incidental work to a complete improvement in accordance with the terms hereinafter set forth and as shown on the contract plans and specifications and the general plan referred to as Exhibit "A", which general plan is also identified as City's Drawing No. 32622, attached hereto and made a part hereof.

No changes in such plans and specifications shall be made by the City without the written consent of the Railroads.

Section 4. The City, at its expense, shall prepare the contract plans and specifications, advertise for bids, and construct or cause to be constructed the aforementioned structures in accordance with the aforesaid general plan referred to as Exhibit "A" attached hereto.

Section 5. All work herein provided to be done which may affect the property, tracks or operation of the Railroads, shall be performed in such manner and at such times as shall be approved by the Chief Engineers of the Railroads or their authorized representatives, and shall be performed in a manner so as to minimize interference with operations of the Railroads. The Railroads agree that they will not unduly delay the City, its contractors or subcontractors performing said work.

Section 6. The Railroads will furnish all material, labor and equipment required for the temporary and permanent relocation or adjustment of their facilities at this location which may be necessary to permit the performance of work covered herein as indicated on the plans and specifications. The City shall reimburse the Railroads for such expense upon receipt by the City of the necessary funds from Federal and State agencies.

After the City and the State have audited and approved the railroads' final detailed statements of costs and expenses incurred in performing their work under this agreement, the City shall reimburse the railroads for the retained percentage, less any items deducted which have been found by the City of the State during audit to be ineligible for reimbursement.

Section 11. The construction cost of the project is programmed to be financed by the Federal and State funds. The Railroads agree to participate jointly in the cost of the engineering design expenses of the bridge structures in the amount of $65,000.

In the event that Federal and State financing under the Topics Program are not available for this project, then this agreement shall be renegotiated to determine the manner of apportioning the cost between the parties hereto.

Section 12. It is agreed that upon completion of the structures they shall be maintained by the Railroads and the City will maintain the street, including sidewalks, curbs and sewers.

The lighting maintenance shall be in accordance with the terms set forth by the Illinois Commerce Commission in Order No. 52161 and any subsequent orders pertaining thereto.

Section 13. This agreement is executed by the City of Chicago pursuant to an ordinance duly passed by its City Council on ....., 1970 (C.J. pp. .....).

It is hereby agreed that the Commissioner of Water and Sewers of the City and his authorized representatives shall have access to and the right to adjust and control valves and meters in order to limit the flow of water as herein provided and for the purpose of meeting any and all emergencies and necessitous requirements.

(15) The Village agrees to comply with any and all sanitary regulations of the City and the present and future rules, regulations and instructions of the Department of Water and Sewers of the City applicable to cross-connections and dual water supplies as are in force in the Chicago Water System. The Village further agrees that the duly authorized engineers and inspectors of the City, in collaboration with the representatives of the Village shall be allowed to make inspections and require tests for tightness of the piping of the water works installations, and of all plants or other buildings of water users within the territorial limits of the Village and the Village further agrees to make such changes in its piping and to eliminate such cross-connections or other connections as in the judgment of the Commissioner of Water and Sewers of the City are necessary. The failure, neglect or refusal on the part of the Village to make promptly and properly such changes in its piping, to maintain tightness or to eliminate undesirable connections upon notice in writing so to do from said Commissioner of Water and Sewers, shall furnish sufficient grounds for the City to shut off the water and discontinue the service hereunder until changes and corrections in said piping or connections required by the City are made by the Village.

(16) The Village agrees to prevent excessive use and waste of water.

(17) The Village agrees to appropriate annually sufficient money or so much thereof, as may be necessary, to provide sufficient funds for the payment of the water furnished by the City hereunder. The Village further agrees that it will at all times charge its water consumers sufficient rates in order to provide adequate funds for the payment of water furnished it by the City.

(18) It is further agreed that the City may either in law or equity, by suit, mandamus or other proceedings, enforce or compel performance of any and all covenants herein contained.

(19) In order to safeguard its water supply received hereunder and the City's water supply, the Village hereby agrees to maintain a safe water supply throughout its system and to provide, maintain and operate at all times during the period of this contract, chlorinating equipment or other equally effective health protecting process equipment of such kind and capacity that a proper chlorine residual or similarly effective result may be carried throughout its water supply system. (20) The City may adopt any protective or health measures it deems advisable or desirable for the benefit of its water consumers, such as the fluoridation of its water, in any manner that the Commissioner of Water and Sewers of the City shall see fit.

(23) The Village agrees to use City water exclusively during the period of this contract.

(24) The Village further agrees not to sell, lease or give any interest in or right or privilege to utilize its water supply main or mains to any other municipality or any consumer of water whose premises are located outside the corporate limits of the Village, and further agrees not to permit any connection to be made to its water supply main or mains, except to supply consumers within the corporate limits of the Village without first securing the consent in writing of the City Council of the City so to do.

(25) At the end of each calendar year during the term of this contract and not later than March 31st of each year, the Village agrees to submit to the Commissioner of Water and Sewers of the City a report in writing showing in cubic feet or gallons the amount of water furnished the Village and the amount in quantity and charges billed by it to consumers during the preceding year and to furnish such other information regarding billing, collections and delinquencies as may be requested from time to time by said Commissioner of Water and Sewers.

(26) At the end of each billing period, but at least quarterly, the Village agrees to submit to the Commissioner of Water and Sewers of the City a complete list of all water consumers of the Village located or residing outside its corporate limits, showing name, location, character of occupancy, amount of water in cubic feet or gallons furnished, charges billed and payment to the City of Chicago at the higher rate.

(27) To secure prompt payment of the water bills, the City shall have the right at any time to require the Village to pay in advance a sum of money estimated by the Commissioner of Water and Sewers of the City to be equal to the cost of water required by the Village, for a period of ninety (90) days at the then prevailing metered rate, which said advance payment the Village hereby agrees to make upon demand.

(31) If the Village shall refuse, neglect or fail to pay promptly the water bills rendered for the water supplied it hereunder within the time or times prescribed by the Ordinances of the City, or if the Village shall fail to comply with or perform any of the conditions or obligations on their part to be complied with or to be performed hereunder, and if after such failure the City shall deliver at the Village Hall of the Village addressed to the President and Board of Trustees of the Village a notice in writing of its intention to shut off the supply of water on account of such failure, refusal or neglect, then the City shall have the right to shut off the supply at the expiration of five (5) days after the giving of such notice, and to terminate this contract unless within such five (5) days the Village shall make good such failure. The shutting off of the supply of water for any such cause shall not release the Village from its obligation to make payments of any amount or amounts due or to become due in accordance with the terms hereof.

(32) No assignment or transfer of this agreement shall be made by the Village.

(33) No officer, official or agent of the City has the power to amend, modify or alter this agreement or waive any of its conditions or to bind the City by making any promise or representation not contained herein.

(34) This agreement is subject to cancellation by the City of Chicago in the event the Supreme Court of the United States of America or any other court of competent jurisdiction decrees that the City has no right to contract for, sell, disperse, distribute or limits the amount of water the City may use for domestic pumpage or otherwise places a burden on the City in connection with the withdrawal of water from Lake Michigan, to any municipality or user residing outside of the limits of the City of Chicago.

(35) The authority of the officials of the City to execute this agreement is evidenced by the authority of the City Council of the City of Chicago given on the .....day of ....., A.D., 19....., and published in the Journal of Proceedings of the City Council for said date on pages ..... thereof.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described, after removing trees there-

from, shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified streets shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb line of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter, and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screening will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screening shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface, The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-

half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette dow form of said paving asphalt at a uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

POZZOLANIC BASE COURSE

IV-2. On the subgrade as formed and compacted shall be placed and compacted to the depth shown on the plans and as herein provided.

(a) The pozzolanic base course shall be constructed in layers not more than (6) inches (compacted) in thickness. When the thickness specified is more than six (6) inches the base course shall be constructed in two (2) or more approximately equal layers. After having been tested for density and approved by the Engineer, the previous layer shall be raked to a depth of one (1) inch and dampened with water immediately prior to placing the succeeding layer so that the layers are in it together. The second layer must be placed the same way as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100% of maximum density except that if more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density.

The Engineer may make such changes in proportions during the progress of the work as he may consider necessary.

(e) *Samples and Tests.*

A ½ gallon sample of the bituminous aggregate mixture for each 5,000 tons produced, shall be taken by the Engineer for extraction tests. A minimum of three samples shall be submitted. The sample shall be a composite sample taken from at least 5 trucks. A one-quart sample of the bituminous material being used shall be taken by the Engineer at the same time the bituminous aggregate mixture sample is taken. The sample shall be taken from the line leading to the asphalt bucket or pug mill spray bar or directly from the asphalt bucket or spray bar, Paving asphalt shall be submitted in a one-quart friction top can.

The sample submitted to the Engineer when mixed with the designated grade of asphalt shall produce a satisfactory bituminous mixture that will have a strength of at least 100 pounds greater than the minimum requirements shown on the plans. If the material will not produce a satisfactory mixture meeting this requirement, the Contractor shall submit a material that will comply.

If the aggregate furnished for design proposes contains some crushed material, the Contractor shall submit with the sample a statement giving the percentage of plus No. 4 material that is crushed. Throughout the improvement this percentage shall be maintained within a minus 5 percentage points of this amount.

(g) The mix to be used shall be prepared as required by the appropriate state specification.

(h) The Engineer may order any tests that he may deem necessary to insure the quality of the work.

The proposed resolution transmitted with the foregoing committee report reads as follows:

COMPENSATION PLAN FOR CITY EMPLOYEES ESTABLISHED FOR YEAR 1971

Whereas, The Compensation Plan for City positions as set forth in the Annual Appropriation Ordinance will promote greater efficiency and will reduce as far as possible the many inequities that have developed over the years in the classification and pay of employees; and

Whereas, The adoption of the plan will establish salary schedules for the various classifications based on cost of living in the Chicago area, prevailing wages and salaries and the nature and responsibility of the positions. The plan establishes a sound and equitable personnel policy throughout the City service. It will encourage qualified men and women to seek a career in City service. It will reduce turn-over. Longevity provisions in the plan insure recognition of long and faithful service to the City. It will simplify budgeting of personal services in all departments; and

Whereas, The Budget takes into consideration the provisions of the Compensation Plan; and

Whereas, In order to coordinate the provisions and the appropriate rules relating to such Compensation Plan and the provisions of the Budget providing for the salaries for the fiscal year, it is desirable that the following declaration by the City Council be adopted; now, therefore,

Be It Resolved, That the following provisions governing the administration of the Compensation Plan as set forth in the Annual Appropriation Ordinance, be adopted:

REGULATIONS GOVERNING THE ADMINISTRATION OF THE COMPENSATION PLAN FOR CLASSIFIED POSITIONS SET FORTH IN THE ANNUAL APPROPRIATION ORDINANCE

A. *Purpose*

These regulations contain provisions governing compensation administration, benefits and working conditions for all classified positions under the jurisdiction of the Civil Service Commission in the departments and offices which are subject to control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago, except the positions in the Chicago Board of Education and Board of Junior Colleges District 508; and for all positions in the departments which are exempted from the jurisdiction of the Civil Service Commission but which are subject to the control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago.

B. *Adoption and Definition of the Compensation Plan.*

1. Adoption of the Compensation Plan

(a) The salary schedules, including a range of pay for each class grade, as set forth in Schedules B, E, G and S Base Salary Schedules for Civil Service classified positions, except positions with single rates, and positions in the exempt offices; Schedules C and T Longevity Salary Schedules for the positions covered by Schedules B and S, Schedule D Salary Schedule for Uniformed Firefighters and Sworn Police Personnel hereof shall constitute the compensation plan for City employees in departments which are subject to the control of the Mayor and the City Council. The class grade for each class of positions as specified in Schedules A-1 and A-2 Civil Service Classified Positions adopted by the Civil Service Commission; and Schedule A-3—Law Department and Schedule A-4—Board of Election Commissioners; as on file with the Civil Service Commission shall determine the salary range applicable to all positions of the class.

(b) Schedule A-2 lists all positions included in the Technical Service Salary Plan. The Civil Service Commission will maintain complete class specifications including minimum education and/or experience requirements for all positions in Schedule A-2. Before an employee may be appointed to a position in the Technical Service Salary Plan, he must be recommended by the appointing authority and his education and/or experience must be approved by the Civil Service Commission and the Mayor's Office as meeting the minimum requirements of the class specification.

(2) Base Salary Schedules.

The normal entrance rate shall be the rate so designated in the salary schedule for all salaried positions. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from a specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the periods specified in the schedules.

(3) Longevity Salary Schedules.

Each longevity salary range in Schedules C and T includes longevity pay rates. After at least one year of satisfactory service at the maximum rate of a base salary range, each salaried employee shall be advanced to the first longevity rate of that range when he has completed the required amount of continuous service with the City as indicated in Schedule C or Schedule T. Advancement by successive steps to the next higher rate or rates shall be made on the basis of satisfactory continuous service for at least the periods specified in the schedules.

(4) Salary Schedules for Uniformed Firefighters and Sworn Police Personnel.

The Salary Schedules for Uniformed Firefighters and Sworn Police Personnel shall be as set forth in Schedule D. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from each specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the period specified in the schedule. The salary rates prescribed in the salary schedules are fixed on the basis of full-time service for normal work weeks of 35 to 40 hours except as

indicated otherwise for certain classes in Schedules A-1, A-2, A-3 and A-4 which are on file with the Civil Service Commission. For positions which are professional, supervisory and executive in character, the normal work weeks of 35 to 40 hours generally apply, but the compensation is intended to be appropriate for the class regardless of variations in the time that may be required to satisfactorily fulfill the responsibilities of the positions.

(6) Computation of Salaries of Part-Time Employees.

Any other employee who is employed on a part-time schedule shall be paid for hours actually worked at an appropriate hourly rate equivalent to the entrance salary rate of the position or the hourly rate set forth in the Annual Appropriation Ordinance or the number of hours set forth in the Annual Appropriation Ordinance.

(7) Continuity of Service.

Service requirements for advancement within the salary ranges and for other purposes as specified in this resolution shall have the implication of continuous service with the City of Chicago, including the positions which are exempt from the jurisdiction of the Civil Service Commission. This means continuously paid employment without a break or interruption; provided that any absence on leave without pay or layoffs for 30 days or less or absence in individual cases adjudged eligible for duty disability compensation or absence on military leave as set forth in Chapter 24½, paragraph 151 of the Illinois Revised Statutes, shall not affect the continuity of service. Absence from the City service on leave without pay for periods in excess of 30 days, all suspensions, time after layoffs for more than 30 days and all absences without leave shall be deducted in computing total continuous service. All separations, discharges and resignations not followed by reinstatement within one year shall interrupt continuous service and shall result in the loss of all prior service credit. Time on a civil service reinstatement list of more than one year, where at least one offer of re-employment has been made and waived or refused, shall interrupt continuous service and shall result in the loss of all prior service credit. Personnel who are paid by voucher shall receive no credit for continuity of service for the period they are paid by voucher.

The policy or policies shall be kept on file with the City Comptroller. Each insurance company shall report to the City Comptroller and the Committee on Finance of the City Council setting forth the number of employees insured, the name and amount expended on behalf of each employee or his beneficiaries and the number of claims pending together with the names of the claimants and the amounts claimed. Each company shall file said reports on or before the first day of August and the first day of February for the prior six months ending on June 30 and December 31.

The enrollment period shall commence on October 1st and shall terminate on October 30th of each fiscal year, except for seasonal employees and new employees who shall be eligible for coverage upon request. All employees shall have not less than 90 days accumulated employment with the City in order to be eligible for coverage under this plan.

C. *Application and Interpretation of the Compensation Plan.*

In exceptional cases, upon recommendation by the department head and by the Civil Service Commission, or in the cases of positions in the Law Department by the Corporation Counsel, or in the Board of Election Commissioners by the Chairman thereof, and upon the approval of the Budget Director and the Chairman of the Committee on Finance of the City Council, original appointment may be made at any base rate above the normal entrance rate. Entrance above the base rate shall be based on the outstanding and unusual character of the applicants education, experience and training over and above the minimum qualifications specified for the class.

(2) Starting Rate on Return to Duty.

When an employee returns to duty in a position of the same class grade after a separation from the City service of not more than one calendar year, which separation was not due to discharge or resignation for cause, such employee shall receive the rate in the applicable salary range of the step

corresponding to the step at which paid at the time of separation, and shall subsequently serve thereat for at least such additional period as required for advancement to the next higher step.

(3) Starting Rate Following Promotion.

When an employee is promoted from one position to a position in a higher class grade, such employee shall be paid at the rate of the lowest step in the higher salary grade that will provide an increase in salary of two steps over the salary paid in the preceding year, except when an employee is promoted a second time within a fiscal year, such employee shall receive an increase of one step over his salary rate in the previous position upon his second promotion, and further provided that such employee shall be paid at least at the entrance rate of the new positions, even though this may provide an increase in excess of the aforementioned limitations. General increases in salary which accrue to all personnel in a salary schedule shall not be considered in determining starting rates following promotion. This action shall be effective on the first day of a pay period and shall not precede the date of receipt of the Personnel Action Report (CS14) at the Civil Service Commission.

(4) Starting Rate on Reclassification of Position.

In the event that a position is reclassified from one class of positions to another class of positions in the same class grade, the incumbent of such position when appointed to the new position by proper authority shall retain the salary he received in the former position.

In the event that the class grade for a class of positions is changed to a higher class grade by the appropriate authority, the incumbents of such position shall retain the rate of pay received in the former grade and shall receive such rate of pay for such additional period as may be required for advancement to the next higher rate of pay, provided that such employees shall be paid at least the entrance rate for the new grade.

In the event that the class grade for a class of positions is changed to a lower class grade by the appropriate authority, the incumbents of such positions shall retain the salary they received in the higher salary range.

(5) Starting Rate on Appointment to a Position of a Lower Class Grade.

In the event that an employee is appointed to a position of a lower class grade, than that of his former position, such employee shall be paid at the same step in the lower class grade as he had been paid in the higher class grade, provided that when an employee receives a civil service promotion to a position which is of a lower class grade than the position in which he is employed, the salary of said employee in the new position shall be based upon length of service in the position from which he is being promoted plus the length of service in the higher class grade position.

(6) Anniversary Dates and Salary Schedule Advancement Following Salary Adjustment.

After initial appointment to a classified position under the jurisdiction of the Civil Service Commission or to a position in the exempt offices, the anniversary date for an employee for purposes of advancement within a salary range shall be adjusted to coincide with the date of an action which increases the pay of the employee. Such action may be in the form of pay advancement within a salary range, promotion, reclassification of the position or change of class grade of the position.

(7) Limitation of Salary Adjustments.

Personnel actions which result in increases in pay by means of advancement within a salary range, promotion, reclassification of position, or change of class grade or position shall be made as set forth herein provided that no employee shall receive the benefit of more than two such actions in any fiscal year, unless a supplemental action is recommended by the department head and is approved (a) by the President of the Civil Service Commission for positions under its jurisdiction, or (b) by the appointing authority for positions in the exempt offices, and (c) by the Budget Director and the Chairman of the Committee on Finance of the City Council.

(8) Accumulation of Service in One Class of Positions.

Whenever an employee accepts work of the same or of a higher level under a different class of positions and later returns to his former same or lower position, his term of employment under such different class of positions shall apply on and be added to his term of service in the same or lower level class upon his return to same, for the purpose of determining the appropriate rate of pay within the range appropriate for the class; provided his employment in the City service has been continuous as hereinbefore defined.

(9) Recommendations for Pay Advancement within a Salary Range.

The Department head concerned shall recommend in writing to the Civil Service Commission the advance in salary of each employee in his department whose performance so merits and who has met the requirements for salary advancement within the range for his position in accordance with the service requirement specified in Section B(2) and (3) dealing with the base salary schedules and longevity schedules. In the case of a classified position under the jurisdiction of the Civil Service Commission this recommendation shall include a certification that the employee has a performance rating of not less than 70, as computed in accordance with the Performance Rating Guide issued by the Civil Service Commission. In cases where the department head intends to withhold a salary increase and where the employee's overall performance rating is 70 or above, the department head shall communicate in writing to the Civil Service Commission the reasons for such action.

The effective date of any advancement within the Compensation Plan shall be at the first day of the next pay period following the date the advancement is recommended and authorized as provided herein and approved by the Civil Service Commission or by the appointing authority for positions in the exempt offices.

D. *Prevailing Rate Positions.*

A prevailing rate (PR) position is hereby defined as one for which the rate is established under acceptable evidence of the wage prevailing in industry. Such positions are usually craft, labor or trade positions, and are not paid under the provisions of the Compensation Plan.

In the event that the pay basis for a position is changed from a prevailing rate to a salary schedule in a class grade the incumbent shall receive the lowest rate in the salary schedule that will not result in a decrease in salary. The Compensation Plan provisions shall thereafter govern.

In the event that an employee is appointed from a position paid on a prevailing rate basis to another position classified and paid under the Compensation Plan, such employee shall be given credit for the

time served in the former position in determining the salary rate, provided that the duties performed in the new position shall be in the same line and character of work as the duties performed in the former position further that any increase in salary shall not exceed 5%, and provided further that the employee shall in no case receive less than the minimum rate of the salary range of the new position. Commendation and Best Wishes Extended to Mr. A. D. Miller for Act of Heroism and Courage.

A proposed resolution reading as follows:

WHEREAS, On Saturday evening, December 5, 1970, Mr. A. D. Miller was relaxing in his apartment after completing his duties as a janitor; and

WHEREAS, He suddenly heard a loud commotion outside his door, peeked out and saw his 85-year old neighbor being pummeled by three robbers; and

WHEREAS, His neighbor was pleading with his assailants not to hurt him. Mr. Miller intervened in the struggle, demanding that the trio stop beating the old man. He was in turn confronted by one of the robbers who pointed a gun at him, told him to mind his own business, and to get back into his own apartment, which he did. Upon hearing the further and more anguished cries of his neighbor and the continual thumping sound from the hall, this quiet, unassuming, heretofore self-effacing man decided that he was indeed his brother's keeper and that the robbers' attack upon his neighbor was indeed his business. Getting his own, legally-registered 38 caliber revolver, he returned to the hallway and, seeing the robbers standing over their fallen victim and one of them extracting money from his wallet, Miller once again reiterated his warning "to leave the old man alone." One of the trio whirled around, pointed his automatic pistol at Miller's head but was apparently unaware that Miller was also armed; and

WHEREAS, Mr. Miller was the faster shot, striking the robber twice in the head, and the other two assailants then fled, one to surrender later to the police; and

WHEREAS, It was only through Mr. Miller's courage and his dedication to the interest and welfare of his fellowman that his elderly neighbor survived the brutal and vicious attack; and

WHEREAS, Detectives of the Damen Avenue Robbery Division have been eloquent in their praise and commendation for the magnificent and extraordinary bravery displayed by Mr. Miller, and have cited their intent to recommend him for the Mayor's Citizens Award for Bravery; now, therefore,

Be It Resolved, That we, the members of the City Council of the City of Chicago, hereby laud the selfless heroism of Mr. A. D. Miller; commend him for his true spirit of brotherhood; express our sincere and deep appreciation for his unflinching courage, especially in the face of the possibility that by confronting the robbers he himself might have been killed; concur in the recommendation that he be nominated as a recipient of the Mayor's Citizens Award; and express to him our every good wish for continued health, happiness and success.

Alderman O'Rourke moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

BUREAU OF EQUIPMENT SERVICE

Equipment Service Account

The Equipment Service Account is established for the purpose of maintaining, repairing, housing and operating rolling equipment, such as trucks, tractors, trailers and steam rollers and such other activities as this account may be equipped to furnish.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges for the use of such rolling equipment shall be made on a unit rate per day or other unit as shall be determined by the Commissioner of Streets and Sanitation and approved by the Comptroller. Such unit rate or other basis of charge shall be determined and shall be revised and adjusted from time to time on the basis of actual cost for furnishing the use of such equipment which cost shall include expense incidental to the maintenance, housing and operation of such rolling equipment and a reasonable and proper charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A complete cost record shall be kept showing the cost of maintaining and repairing the rolling equipment, the charges for depreciation and the cost of operating such equipment by each piece, or by type or group.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Equipment Service Account to a depreciation reserve fund and expended therefrom for the replacement of equipment and machinery.

Expenditures from this account are authorized for all expense for material, supplies, fuel, repairs, services and other expense and for maintenance of necessary stock, incident to the maintenance, housing and operation of rolling and other equipment.

Expenditures for salaries and wages are authorized for the following employes, at not to exceed the rate or number specified, for such period of time as may be necessary; including increments for schedule salary adjustments; and for vacation relief for Foremen.

BUREAU OF ELECTRICITY—Continued

ELECTRICAL CONSTRUCTION CAPITAL ACCOUNT

The Electrical Construction Capital Account is established for the purpose of constructing, maintaining and repairing street lighting and other public electric facilities, and for the purpose of purchasing and maintaining a stock of material and supplies in connection therewith, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing material and services, including for incidental and overhead expense, not to exceed the following percentages: Thirty per cent of the direct labor charges and fifteen per cent of the material and other charges; provided that charges for the use of trucks, compressors, mixers and other rolling and mechanical equipment shall be made on a unit rate per day or other unit as shall be determined by the Commissioner of Streets and Sanitation and approved by the Comptroller. Such unit rate or other basis of charge shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance, housing and operation of such rolling and mechanical equipment and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Electrical Construction Capital Account to a depreciation reserve fund and expended therefrom for the replacement of rolling and mechanical equipment.

Expenditures are authorized to be made for material and supplies for hire of trucks and other equipment and for other services

ENGINEERING REVOLVING FUND

The Engineering Revolving Fund is established for the purpose of doing the necessary work in connection with the engineering, inspection and supervision of projects under the jurisdiction or supervision of the Department of Public Works of the City of Chicago, the expense of which is to be reimbursed from appropriations of the City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Section 7-24.1 to 7-24.10 of the Municipal Code of Chicago and to the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing the services including not to exceed twenty percent for overhead and incidental expenses, provided that the engineering and drafting furniture, machinery and equipment used in the furnishing of services shall be charged for at fair rates as established by the department, subject to the approval of the Comptroller. Such rates for furniture and equipment used in furnishing of services shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance and operation of such equipment and furniture and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Engineering Revolving Fund to a Depreciation Reserve Fund and expended therefrom for the replacement of equipment; including automotive equipment.

Expenditures are authorized for all items as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures for salaries and wages, including increments for schedule salary adjustments, and compensation for use of personally-owned automobiles are limited to such positions, such number of positions, and rates of compensation as are specified hereunder.

Additional compensation of twenty-five cents per hour is authorized to be paid to employes during such periods as they may work under compressed air.

Overtime at established rates is authorized to be paid to employes.

The Asphalt Plant Capital Account is established for the purpose of manufacturing and delivering asphalt for street pavements, the expense for which is to be reimbursed from appropriations of City funds or funds of other governmental agencies.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Asphalt and the delivery thereof to jobs shall be made on standard schedules of rates as determined by the Commissioner of Streets and Sanitation and approved by the City Comptroller. The rates as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate. Such rates shall be revised and adjusted from time to time on the basis of the total cost, including maintenance and depreciation of the asphalt plant buildings and equipment, and plus not to exceed ten per cent for general administrative, overhead and other expense.

Expenditures are authorized for salaries and wages of authorized titles, material and supplies, truck service and other expense incident to the manufacture and delivery of asphalt.

On motion of Alderman Keane the City Council took up for consideration the report of the Committee on Finance deferred and published in the Journal of the Proceedings of December 4, 1970, pages 9514 to 9520 recommending that the City Council pass a proposed resolution to authorize a classification and compensation plan for City employees for the Year 1971.

On motion of Alderman Keane said proposed resolution was *Adopted,* by yeas and nays as follows:

Yeas—Aldermen Roti, Hubbard, Metcalfe, Holman, Despres, Rayner, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Frost, Kuta, Marzullo, Sain, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling—41.

Nays—None.

The following is said resolution as adopted:

COMPENSATION PLAN FOR CITY EMPLOYEES ESTABLISHED FOR YEAR 1971.

WHEREAS, The Compensation Plan for City positions as set forth in the Annual Appropriation Ordinance will promote greater efficiency and will reduce as far as possible the many inequities that have developed over the years in the classification and pay of employees; and

WHEREAS, The adoption of the plan will establish salary schedules for the various classifications based on cost of living in the Chicago area, prevailing wages and salaries and the nature and responsibility of the positions. The plan establishes a sound and equitable personnel policy throughout the City service. It will encourage qualified men and women to seek a career in City service. It will reduce turn-over. Longevity provisions in the plan insure recognition of long and faithful service to the City. It will simplify budgeting of personal services in all departments; and

WHEREAS, The Budget takes into consideration the provisions of the Compensation Plan; and

WHEREAS, In order to coordinate the provisions and the appropriate rules relating to such Compensation Plan and the provisions of the Budget providing for the salaries for the fiscal year, it is desirable that the following declaration by the City Council be adopted; now, therefore,

Be It Resolved, That the following provisions governing the administration of the Compensation Plan as set forth in the Annual Appropriation Ordinance, be adopted:

REGULATIONS GOVERNING THE ADMINISTRATION OF THE COMPENSATION PLAN FOR CLASSIFIED POSITIONS SET FORTH IN THE ANNUAL APPROPRIATION ORDINANCE.

A. PURPOSE.

These regulations contain provisions governing compensation administration, benefits and working conditions for all classified positions under the jurisdiction of the Civil Service Commission in the departments and offices which are subject to control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago, except the positions in the Chicago Board of Education and Board of Junior Colleges District 508; and for all positions in the departments which are exempted from the jurisdiction of the Civil Service Commission but which are subject to the control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago.

B. ADOPTION AND DEFINITION OF THE COMPENSATION PLAN.

(1) Adoption of the Compensation Plan.

(a) The salary schedules, including a range of pay for each class grade, as set forth in Schedules B, E, G and S Base Salary Schedules for Civil Service classified positions, except positions with single rates, and positions in the exempt offices; Schedules C and T Longevity Salary Schedules for the positions covered by Schedules B and S, Schedule D Salary Schedule for Uniformed Firefighters and Sworn Police Personnel hereof shall constitute the compensation plan for City employees in departments which are subject to the control of the Mayor and the City Council. The class grade for each class of positions as specified in Schedules A-1 and A-2 Civil Service Classified Positions adopted by the Civil Service Commission; and Schedule A-3—Law Department and Schedule A-4—Board of Election Commissioners; as on file with the Civil Service Commission shall determine the salary range applicable to all positions of the class.

(b) Schedule A-2 lists all positions included in the Technical Service Salary Plan. The Civil Service Commission will maintain complete class specifications including minimum education and/or experience requirements for all positions in Schedule A-2. Before an employee may be appointed to a position in the Technical Service Salary Plan, he must be recommended by the appointing authority and his education and/or experience must be approved by the Civil Service Commission and the Mayor's Office as meeting the minimum requirements of the class specification.

(2) Base Salary Schedules.

Each base salary range in Schedules B, E, G and S includes an entrance rate, an intermediate rate or rates and a maximum rate. The normal entrance rate shall be the rate so designated in the salary schedule for all salaried positions. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from a specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the periods specified in the schedules.

(3) Longevity Salary Schedules.

Each longevity salary range in Schedules C and T includes longevity pay rates. After at least one year of satisfactory service at the maximum rate of a base salary range, each salaried employee shall be advanced to the first longevity rate of that range when he has completed the required amount of continuous service with the City as indicated in Schedule C or Schedule T. Advancement by successive steps to the next higher rate or rates shall be made on the basis of satisfactory continuous service for at least the periods specified in the schedules.

(4) Salary Schedules for Uniformed Firefighters and Sworn Police Personnel.

The Salary Schedules for Uniformed Firefighters and Sworn Police Personnel shall be as set forth in Schedule D. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from each specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the period specified in the schedule. indicated otherwise for certain classes in Schedules A-1, A-2, A-3 and A-4 which are on file with the Civil Service Commission. For positions which are professional, supervisory and executive in character, the normal work weeks of 35 to 40 hours generally apply, but the compensation is intended to be appropriate for the class regardless of variations in the time that may be required to satisfactorily fulfill the responsibilities of the positions.

(6) Computation of Salaries of Part-Time Employees.

A professional employee occupying a position in Schedule B, Class Grade 9, Schedule E, Class Grade E-1 Schedule S, Class Grade S-1 and Schedule G, Class Grade G-1 and above who is regularly employed on a continuing work schedule of less than 35 hours per week, shall be compensated on the following basis:

(7) Continuity of Service.

Service requirements for advancement within the salary ranges and for other purposes as specified in this resolution shall have the implication of continuous service with the City of Chicago, including the positions which are exempt from the jurisdiction of the Civil Service Commission. This means continuously paid employment without a break or interruption; provided that any absence on leave without pay or layoffs for 30 days or less or absence in individual cases adjudged eligible for duty disability compensation or absence on military leave as set forth in Chapter 24½, paragraph 151 of the Illinois Revised Statutes, shall not affect the continuity of service. Absence from the City service on leave without pay for periods in excess of 30 days, all suspensions, time after layoffs for more than 30 days and all absences without leave shall be deducted in computing total continuous service. All separations, discharges and resignations not followed by reinstatement within one year shall interrupt continuous service and shall result in the loss of all prior service credit. Time on a civil service reinstatement list of more than one year, where at least one offer of re-employment has been made and waived or refused, shall interrupt continuous service and shall result in the loss of all prior service credit. Personnel who are paid by voucher shall receive no credit for continuity of service for the period they are paid by voucher.

Any employees of the City who have rendered service to the County of Cook, the Chicago Park District, the Forest Preserve District, the Chicago Land Clearance Commission, the Chicago Housing Authority, The Metropolitan Sanitary District of Greater Chicago, the State of Illinois, the Chicago Board of Education, Board of Junior Colleges District 508 or the Chicago Transit Authority, shall have the right to have the period of such service credited and counted for the purpose of advancement within the longevity salary schedules, provided that the above interpretation of continuous service shall apply.

The policy or policies shall be kept on file with the City Comptroller. Each insurance company shall report to the City Comptroller and the Committee on Finance of the City Council setting forth the number of employees insured, the name and amount expended on behalf of each employee or his beneficiaries and the number of claims pending together with the names of the claimants and the amounts claimed. Each company shall file said reports on or before the first day of August and the first day of February for the prior six months ending on June 30 and December 31.

The enrollment period shall commence on October 1st and shall terminate on October 30th of each fiscal year, except for seasonal employees and new employees who shall be eligible for coverage upon request. All employees shall have not less than 90 days accumulated employment with the City in order to be eligible for coverage under this plan.

C. Application and Interpretation of the Compensation Plan.

(1) Starting Rate on Initial Employment.

Original appointments to any positions shall be made at the entrance rate of the salary range prescribed for the applicable class grade. In exceptional cases, upon recommendation by the department head and by the Civil Service Commission, or in the cases of positions in the Law Department by the Corporation Counsel, or in the Board of Election Commissioners by the Chairman thereof, and upon the approval of the Budget Director and the Chairman of the Committee on Finance of the City Council, original appointment may be made at any base rate above the normal entrance rate. Entrance above the base rate shall be based on the outstanding and unusual character of the applicants education, experience and training over and above the minimum qualifications specified for the class.

(2) Starting Rate on Return to Duty.

When an employee returns to duty in a position of the same class grade after a separation from the City service of not more than one calendar year, which separation was not due to discharge or resignation for cause, such employee shall receive the rate in the applicable salary range of the step

corresponding to the step at which paid at the time of separation, and shall subsequently serve thereat for at least such additional period as required for advancement to the next higher step.

(3) Starting Rate Following Promotion.

When an employee is promoted from one position to a position in a higher class grade, such employee shall be paid at the rate of the lowest step in the higher salary grade that will provide an increase in salary of two steps over the salary paid in the preceding year, except when an employee is promoted a second time within a fiscal year, such employee shall receive an increase of one step over his salary rate in the previous position upon his second promotion, and further provided that such employee shall be paid at least at the entrance rate of the new positions, even though this may provide an increase in excess of the aforementioned limitations. General increases in salary which accrue to all personnel in a salary schedule shall not be considered in determining starting rates following promotion. This action shall be effective on the first day of a pay period and shall not precede the date of receipt of the Personnel Action Report (CS14) at the Civil Service Commission.

(4) Starting Rate on Reclassification of Position.

In the event that a position is reclassified from one class of positions to another class of positions in the same class grade, the incumbent of such position when appointed to the new position by proper authority shall retain the salary he received in the former position.

In the event that the class grade for a class of positions is changed to a higher class grade by the appropriate authority, the incumbents of such position shall retain the rate of pay received in the former grade and shall receive such rate of pay for such additional period as may be required for advancement to the next higher rate of pay, provided that such employees shall be paid at least the entrance rate for the new grade.

In the event that the class grade for a class of positions is changed to a lower class grade by the appropriate authority, the incumbents of such positions shall retain the salary they received in the higher salary range.

(5) Starting Rate on Appointment to a Position of a Lower Class Grade.

In the event that an employee is appointed to a position of a lower class grade, than that of his former position, such employee shall be paid at the same step in the lower class grade as he had been paid in the higher class grade, provided that when an employee receives a civil service promotion to a position which is of a lower class grade than the position in which he is employed, the salary of said employee in the new position shall be based upon length of service in the position from which he is being promoted plus the length of service in the higher class grade position.

(6) Anniversary Dates and Salary Schedule Advancement Following Salary Adjustment.

After initial appointment to a classified position under the jurisdiction of the Civil Service Commission or to a position in the exempt offices, the anniversary date for an employee for purposes of advancement within a salary range shall be adjusted to coincide with the date of an action which increases the pay of the employee. Such action may be in the form of pay advancement within a salary range, promotion, reclassification of the position or change of class grade of the position.

(7) Limitation of Salary Adjustments.

Personnel actions which result in increases in pay by means of advancement within a salary range, promotion, reclassification of position, or change of class grade or position shall be made as set forth herein provided that no employee shall receive the benefit of more than two such actions in any fiscal year, unless a supplemental action is recommended by the department head and is approved (a) by the President of the Civil Service Commission for positions under its jurisdiction, or (b) by the appointing authority for positions in the exempt offices, and (c) by the Budget Director and the Chairman of the Committee on Finance of the City Council.

(8) Accumulation of Service in One Class of Positions.

Whenever an employee accepts work of the same or of a higher level under a different class of positions and later returns to his former same or lower position, his term of employment under such different class of positions shall apply on and be added to his term of service in the same or lower level class upon his return to same, for the purpose of determining the appropriate rate of pay within the range appropriate for the class; provided his employment in the City service has been continuous as hereinbefore defined.

(9) Recommendations for Pay Advancement within a Salary Range.

The Department head concerned shall recommend in writing to the Civil Service Commission the advance in salary of each employee in his department whose performance so merits and who has met the requirements for salary advancement within the range for his position in accordance with the service requirement specified in Section B(2) and (3) dealing with the base salary schedules and longevity schedules. In the case of a classified position under the jurisdiction of the Civil Service Commission this recommendation shall include a certification that the employee has a performance rating of not less than 70, as computed in accordance with the Performance Rating Guide issued by the Civil Service Commission. In cases where the department head intends to withhold a salary increase and where the employee's overall performance rating is 70 or above, the department head shall communicate in writing to the Civil Service Commission the reasons for such action.

The effective date of any advancement within the Compensation Plan shall be at the first day of the next pay period following the date the advancement is recommended and authorized as provided herein and approved by the Civil Service Commission or by the appointing authority for positions in the exempt offices.

D. PREVAILING RATE POSITIONS.

A prevailing rate (PR) position is hereby defined as one for which the rate is established under acceptable evidence of the wage prevailing in industry. Such positions are usually craft, labor or trade positions, and are not paid under the provisions of the Compensation Plan.

In the event that the pay basis for a position is changed from a prevailing rate to a salary schedule in a class grade the incumbent shall receive the lowest rate in the salary schedule that will not result in a decrease in salary. The Compensation Plan provisions shall thereafter govern.

In the event that an employee is appointed from a position paid on a prevailing rate basis to another position classified and paid under the Compensation Plan, such employee shall be given credit for the

time served in the former position in determining the salary rate, provided that the duties performed in the new position shall be in the same line and character of work as the duties performed in the former position further that any increase in salary shall not exceed 5%, and provided further that the employee shall in no case receive less than the minimum rate of the salary range of the new position. Court Decisions.

Communications from the Law Department addressed to the City Council, signed by Richard F. Friedman, Howard C. Goldman, Gayle F. Haglund, Assistants Corporation Counsel and Marvin E. Aspen, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

The City of Chicago, Appellee vs. Staughton Lynd, et al., Appellants, Illinois Supreme Court No. 42495. Defendants in this cause were charged with violation of Section 11-33 of the Municipal Code of Chicago and specifically with interfering with police while picketing at the site of the Democratic National Convention in 1968. The Supreme Court held there was a governmental interest involved during convention sessions, that picketing could be limited at that time and that defendants failed to obey valid police orders. Judgment of the Circuit Court of Cook County affirmed.

Ida Collins, Plaintiff-Appellee vs. Richard J. Daley, et al., Appellate Court of Illinois No. 53583. In this cause the Circuit Court reversed the finding of the Local Liquor License Commissioner who revoked the liquor license of the Plaintiff-Appellee because of a shooting incident on the licensed premises. The Appellate Court held that the findings of the Commissioner were supported by the record and justified the revocation of the license. Judgment of Circuit Court is reversed.

Leo Weintraub and Rene Nawodylo, Plaintiff-Appellees vs. Edward V. Hanrahan, et al., Defendants-Appellants, No. 18542, in the United States Court of Appeals. The plaintiffs herein filed for and received a preliminary injunction restraining public officials from prosecuting defendants until a determination had been made on the constitutionality thereof. The United States Court of Appeals vacated the Preliminary Restraining Order and remanded the District Court Order. Cause remanded.

The City of Chicago, Plaintiff-Appellee vs. Calvin Morris, Defendant-Appellant, Illinois Supreme Court No. 42733. Defendant herein was charged under Section 193-1 (a) with disorderly conduct and convicted therein under provisions of Municipal Code of Chicago. The Illinois Supreme Court affirmed the decision of Circuit Court of Cook County. Judgment affirmed.
